BIG INCREASE IN MINERAL WATER

Nearly Four-Fifths of the Water Used in Virginia Is for Medicinal Purposes.

STEADY GROWTH EXPECTED

Production During Last Year Fell Off Considerably in Several States, However.

(Special to The Times-Dispatch.)
WASHINGTON, August 11.—The an-ual bulletin of the production of mineral waters in the United States during the year 1905 shows that the trade was fairly prosperous. The report, which was prepared by Myron W. Fuller, treats only of those springs which produced waters that were sold and are thus classed as

of those springs which produced waters that were sold and are thus classed as commercial springs.

The production during the last year fell off considerably in a number of those States which have been classed as leading producers, the decrease being especially marked in New York, California and Massachusetts. On the other hand, the output has largely increased in Indiana, Minnesota, Pennsylvania, Tennessee and Texas, and to a lessor extent in many other States.

In 1905, for the first time, the attempt was made to differentiate table and medicinal waters and to present gatistics as to the use of springs, resorts and for bathing. It is difficult to draw a line between table and medicinal waters, as many are used for both purposes, and the shipper often has no means of determining the proportion applied to each.

termining the proportion applied to each.
In nearly all cases the estimates of the
owners have been taken, and where these owners have been taken, and where these have not been furnished the waters have been classified according to composition or price. Where the price is the basis of classification, the locality has elso been considered. Medicinal waters in the North rarely bring less than 25 cents as gallon, but in the Southern States much water, selling even as low as 10 cents a gallon or less, is used for medicinal purposes.

Future of the Trade.

Future of the Irace.

The trade outlook, judging from the figures, would appear to be fairly promising, a steady growth being looked for rather than sudden expansion. The people are rapidly being educated to demand better public supplies, and if these are not promptly furnished, recourse will undoubtedly be had to spring waters for table purposes. It is, in fact, in the use of such waters that the most rapid increase is to be expected. Of course, as use of such waters that the most rapid increase is to be expected. Of course, as purer public suppiles are introduced, the local demand for table water falls off; but usually this is more than counterbalanced by increased demands elsewhere. Not only will table water be extensively utilized where the city supplied are polluted, but their uses will be extended to those cities whose supplies, though not contaminated, are unsightly by reason of sediment or distasteful because of algous or weedy growth.

Few, if any, countries can surpass the

cause of algous or weedy growth.

Few, if any, countries can surpass the United States in the variety of its mineral waters and in their medicinal properties. Their possibilities are very great, and will undoubtedly be more extensively used and appreciated as time goes on. Unfortunately, for the mineral water trade at least, the American people are little given to the mineral water treatment alone. To bring about an increased use of springs for therapeutic purposes, attractive resorts must be provided. use of springs for therapeutic purposes, attractive resorts must be provided. This has been done in many instances, with the result that at some places, as at Hot Springs, Ark., the attendance rivals or even excels many of the famous European springs. The use of mineral waters for bathing purposes, especially in connection with sanitariums, has already become of much importance, and will become more so in the near future. Likewise, the use of bottled waters for medicinal purposes will undoubtedly increase as the therapeutic value of American waters becomes better known.

known.

The effort of the Agricultural Department to publish accurate analyses of the leading spring waters now sold on the market should do much to improve the mineral water trade by furnishing physicians and others with accurate information as to composition which is esential for the successful treatment of disease by mineral waters.

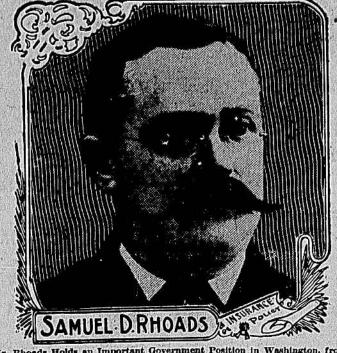

Virginia Mineral Waters.

There was a decided increase in the

There was a decided increase in the mineral trade of Virginia in 1905 over the previous year; the output increased considerably and the value, owing to the increased price per gallon, nearly doubled. The difference is probably to be at-tributed to the natural development of the business. Nearly four-fifths of the water 'is used for medicinal purposes. Nineteen of the springs are reported to

the catarrh, is as a tonic and restorative of appetite, strength and good spirits."-Samuel D. Rhoads.

AN INSURANCE MAN TESTIFIES TO THE GREAT VIRTUES OF PE-RU-NA.

Mr. Rhoads Holds an Important Government Position in Washington, from Which He Writes a Very Interesting Letter Concerning Pe-ru-na.

What Pe-ru-na Has Done for One Family Pe-ru-na Can Do for Another Family.

"I heartly and unreservedly wish to gother with the physical, to a wonderful give my endorsement to Peruna as a catarrh cure that is not approached by any other medicine, at least in my observation and experience, and noting what it has done for members of my family. Its crowning virtue, after it has cured the catarrh, is as a tonic and restorative the catarrh, is as a tonic and restorative with the physical, to a wonderful together with the physical th

Mr. Samuel D. Rhoads, a prominent insurance man of Lansdowne, Pa., writes from Washington, D. C., as follows:

"I heartlly and unreservedly wish to give my endorsement to Peruna as a cause of the provided of the physical and assists the mental activities, together with the physical, to a wonderful degree."

the catarch, is as a tone and restorative of appetite, strength and good spirits."

Pe-ru-na Restores Strength.

Mr. G. W. Woodbury, Rogers, O., formerly captain and center-of the Hram College Basket Ball Team, writes:

"There are times in the life of every student when excessive study and too close confinement and attention to the object in view will tell on his health.

"I have found that's when body and mind allke were weary and refused to work, a few doses of Peruna restored lost but of it, and it does me good."

Keeps Pe-ru-na in the House.

Mr. Chas. S. Many, 12 Water Street, Ossining, N. Y., writes:

"I had catarch for ten years, and tried d. great many kinds of medicines, which does me it of the many kinds of medicines, which does me food. Instead of getting better, I seemed to get worse. I read about Peruna, and thought I would give it a trial. I took about ten bottles, and am cured of the catarch.

"I have found that's when body and mind allke were weary and refused to get worse. I read about Peruna, and tried d. great many kinds of medicines, which does me good. Instead of getting better, I seemed to get worse. I read about Peruna, and to good. Instead of getting better, I seemed to good. Instead of getting better, I seemed to get worse. All the Workers in the Virginia Educational Vineyard to Meet in November.

ALL MEETINGS POINT TO THIS

Covernor Swanson, Who Is Deeply Interested, Will Make the Principal Address.

Virginia has been blessed with many educational gatherings during the past few years. There have been local rallies without number, numerous district meetings and not a few State conventions and conferences; but if the plans now taking definite form do not miscarry, all previous assemblies united would hardly surpass the conference of the friends of education that will assemble in Richmond on November 26th-30th. It had been recognized that it was advisable to attempt only one large educational gathering yearly outside of the summer institutes for teachers, and with this idea in view the Co-operative Education Association and the, State Teachers' Association had planned a joint meeting in Richmond early in October. The Superintendent of Public Instruction was invited to call the annual conference of division superintendents at the same time, which he was very glad to do.

ton reached the conclusion that the time was ripe for a great meeting of all of the educational forces of the State. He fixed

All to Come Here.

All to Come Here.

To this meeting all of the workers in the educational vineyard will be invited. The teachers will be present in force, no doubt the superintendents on masse, and school officers and citizens in great numbers. School trustees, supervisors, members of the School Trustee Electoral Boards, and all others who are specially better that in the management of the

Several Meetings in One.

The programme will provide for several mass meetings, at which some of the ablest speakers in the country will be heard. Specialists in various lines of primary, grammar and high school work will be invited to give the latest and best thoughts in their respective departments. The greater part of the time, however, will be spent in separate conferences of the different branches of school work. The superintendents will however, will be spent in separate conferences of the different branches of school work. The superintendents will have their separate meetings, the trustees theirs, the Clizons' League theirs, and the teachers theirs. Opportunities will be given for the high school teachers to confer, and, indeed, any of the departments of school, work will be afforded abundant opportunities for special conferences and heart to heart talks.

It is hoped that the broadest spirit of democracy and good-fellowship will prevail, and that many of those present will take part in the general discussions.

The management is fortunate in being able to announce that Governor Swanson is deeply interested in the success of this meeting, and that he will deliver the principal address on the evening of November 25th.

NEW HIGH SCHOOL.

Contract Let for an Up-to-Date Building at Keysville.

(Special to The Times-Dispatch).

KEYSVILLE, VA., August 11.—The contract for the erection of the new public High School building at Keysville has been awarded to Mr. G. A. Thompson. The building will have four rooms, and especial attention has been given to the lighting and to the ventilization. The school will be properly equipped with good heating facilities. In fact, when completed, the new High School build-

good heating facilities. In fact, when completed, the new High School building in Keysylle will be a model for comfort and convenience.

The following teachers have been appointed for the coming session, Professor H. C. Ruffin, principal; Miss Louise Spencer, first assistant; Riss Made McGehee, second assistant.

Professor Ruffin and Miss McGehee were the teachers last session, and during the session the enrolment amounted to were the teachers last session, and during the session the carolment amounted to seventy-seven pupils. Miss Louise Spencer-has been principal of the Virginia Home School, but has deedled to throw her, influence with the High School. In addition to the regular teachers, Miss-Lillian Glimore, the popular and successful teacher of music in the Virginia Home School last year, will have a fully equipped music school, to which the pupils of the public school will have access. Miss Glimore is spending her vacation in New York, doing advanced work in music.

Arrangements have been made for boarding accommodations for a large number of pupils. Any one interested in the school will please write to Professor H. C. Ruffin, Keysville, Va., for further information. Next session is expected to begin September 15th, and to continue eight months.

SIDEWALK BONDS.

Louisa Votes the Issue and Asks for Bids.

(Special to The Times-Dispatch.)
LOUISA, VA., August II.—The election held yesterday as to whether the town should issue 36,000 5 per cent, sidewalk paving bonds, to run thirty-five years, was in favor of the bond issue, with only one dissenting yole, and at a meeting of the Town Council last night it was decided to advertise for bids for the bonds.

hends.

At a meeting of the Town Council this morning bids were opened for the paving and ourbing of all the sidewalks in town not now paved, and other improvements, and the contract awarded to James F. Bradley & Co., of Richmond, who was represented here by W. J. McAughey, construction engineer.

The work is to be completed by December 1st, and the contractor will commence work as soon as material can be brought here.

Negro Criminals.

(Special to The Times-Dispatch.)

LOUISA, VA. August 11.—Gordon Scot and Bettle, bis wife, and George Scot, their soin all colored, were arrested yesterday, having stolen an ox from Mr. I. C. Wright and soid him to a cattle-dealer from Culpeper. They will be tried on the 25th. The ox was recovered by the owner.

Tom Depow, the negro wanted for

attempted oriminal assault, eluded the posse hunting for him Thursday night, and it is thought is making his way through Goochland county to strike the James River Division of the Chesapeake and Onto Ralicond, and will elitter make his way to Richmond or Lynchburg.
